

My Page One-Page Profile

Please complete this one-page profile before your assessment and/or transition meeting with your case manager. This allows us to know you better and understand what is important to you. Your case manager will review your profile with you before completing your assessment and person-centered service plan.

By understanding you and your goals, your case manager can better help determine how DSHS' Developmental Disabilities Administration paid services may assist you in living the life you want to live. My Page can help us create a bridge toward your goals and make the assessment/transition feel more personal.

You can complete the one-page profile on your own or with assistance. If you need extra space, you can use another sheet of paper. Feel free to include a picture of yourself with your profile.

Not completing the profile will not affect your eligibility to receive a DDA assessment or paid services.
